

# EarthSmart™ Eclipse 15 mil

**100% Biodegradable, 100% Recyclable,  
Blockout Banner Material for UV Flatbed Printers.**

# EarthSmart™

**Eco-friendly media by Drytac®**

**Drytac Earth-Friendly™**

EarthSmart™ Eclipse is non-PVC blockout banner material for UV-flatbed printers. Its high tensile strength and blockout layer make it an ideal choice for durable display and banner stand graphics as well as hanging banners.

ASTM and ISO certified to be compostable, EarthSmart™ Eclipse can also be recycled in commercial plastics recycling programs to become raw material for products like trash bags and landscape fabric.

To find out more about other EarthSmart™ Eclipse and other earth friendly products under the Drytac® Green Umbrella™ contact us or visit our website today.

## **Available in these sizes:**
